

STOP THE DAKOTA ACCESS PIPELINE!

The proposed Dakota Access Pipeline would carry more than 450,000 barrels of oil per day from the Bakken area of North Dakota through South Dakota and Iowa to Peoria, Illinois. The Dakota Access Pipeline...

- ...is routed through the **Standing Rock tribe's treaty territory**, where they have identified historical sacred sites and burial grounds, and under the Missouri River which provides drinking water for the tribe and millions of other Americans;
- ...would result in as much **greenhouse gas emissions** as opening 30 new coal plants
- ...is financed largely by Enbridge Energy, the **company responsible for dumping nearly a million gallons oil** into the Kalamazoo River in 2010 in the largest inland oil spill in U.S. history;
- ...has undergone **no Environmental Impact Statement** or meaningful tribal consultation;
- ...and **violates multiple federal laws**, including the Executive Order on Environmental Justice and the Fort Laramie Treaty of 1851.
